What you can change

- Brix level: Available from 32 to 40 °Bx within the published range, allowing for thinner or thicker finished profiles.
- Sodium level: Sodium can vary by formulation and should be specified for the intended product program.
- Coconut vinegar: Available with or without coconut vinegar, which changes the acidity and finished pH.
- Pack format: Available in 230 kg drums, 22 kg pails, or 150 ml and 375 ml glass bottles.
